

# A ratings and reviews platform sharing the participant voice to **improve site performance.**

TrialJourney™ is a platform for participants to seamlessly find all available trials, research participants to communicate about their site experience, and anyone to view participant experiences at a research site.

**77% response rate**

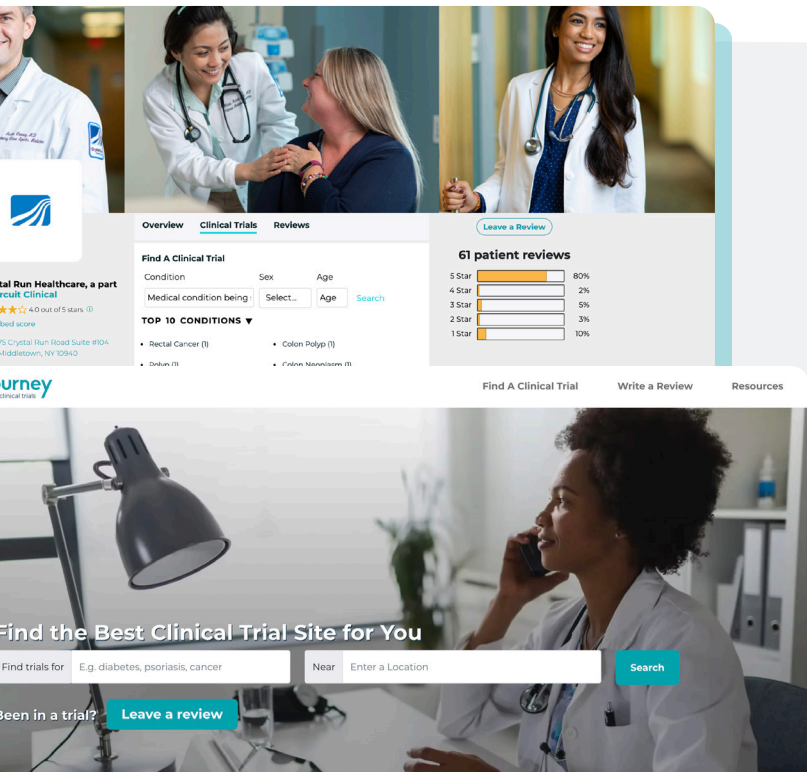

compared to industry average of 34%

**4.72/5 star rating**

from participants satisfied with TrialJourney technology

## Leveraging the participant voice across the trial lifecycle.

- Access a new dimension of site data through ratings and reviews
- Capture real-world feedback
- Decrease participant burden using data-driven insights
- Predict and prevent dropout with real-time alerts
- Share data back to participants, sponsors, and CROs
- Improve operational aspects of sites and clinical trials
- Ability for integration with major clinical trial platforms

**We are activating the participant voice to improve site performance, accelerate recruitment, and prevent dropout with TrialJourney™.**
